

OUR YEARBOOK OF MEMORIES

Fitchburg High School

All members of FHS will be present, positive, and prepared in order to think critically and communicate effectively.

Dear Class of 2023,

I have had the pleasure of working with you for the past four years. I want to acknowledge the challenges that you have faced during your high school years. The pandemic has been an unprecedented event that has disrupted our lives in ways we could never have imagined. Never would we have expected that when you left school in March of your freshman year, that not only would you not return to finish out your freshman year, but that the next couple of years would also be impacted. These experiences have helped to shape who you are and there are some valuable lessons to take with you into your future.

As you look to post graduation, it is understandable that you may feel uncertain about what lies ahead. However, there is reason to be optimistic. During the pandemic you felt the same way, but with the rollout of vaccines and the gradual easing of restrictions, there was a way forward with a promise of better days. Although your future may be unknown, there is a world of endless possibilities with a promise of a new and exciting future.

Don't forget that you have already demonstrated resilience and adaptability in the face of adversity. You have shown that you are capable of weathering difficult times and coming out stronger on the other side. No matter what uncertainty you encounter in your future, know that you can make it through one step at a time. Don't fight adversity but embrace it, knowing that it shapes who you are.

In addition, the pandemic experience has taught you the value of human connections and the importance of community. I encourage you to be kind, friendly, and take initiative to meet new people wherever your post graduation road may take you. Find new friends that reflect your values and challenge you to be a better person.

The pandemic has taught many to not only be innovative in accelerated ways, but to also pursue careers that make a difference and fit their passions. Many adults took risks to explore new careers. Find a career that not only provides you money to make a living, but also something that you love to do, and makes a difference in the world.

Although you are moving on from Fitchburg High School, you will be a Red Raider for life. Don't forget that wherever you go to be present, positive, and prepared in order to think critically and communicate effectively!

Sincerely,

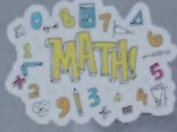

Tonya J. Janett

I carry these memories and moments with me everywhere. They all mean so much to me and I'll cherish them for the rest of my life."

BEST FRIENDS

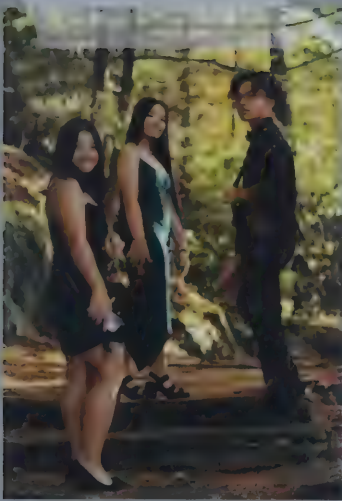

Your mother warned you there'd be days like these
But she didn't tell you when the world has brought
You down to your knees that
I'll be there for you
(When the rain starts to pour)
I'll be there for you
(Like I've been there before)
I'll be there for you
(Cause you're there for me too)
No one could ever know me
No one could ever see me
Seems you're the only one who knows
What it's like to be me
Someone to face the day with
Make it through all the rest with
Someone I'll always laugh with
Even at my worst, I'm best with you, yeah
It's like you're always stuck in second gear
When it hasn't been your day, your week, your month
Or even your year
I'll be there for you
(Cause you're there for me too)
